News

Staff Recognition

This month's Staff Recognition goes to the Baby Room staff team. All staff within the room work really well as a team and have been working really hard over the past few weeks to settle all the new children that have recently started to ensure they are feeling happy and safe. Well done Baby Bees, keep up the good work.

Staff Profiles

As parents/ carers are no longer coming into the setting to see the staff like they used to, we thought it would be a good idea each month to do a Staff Profile for you all to see a photo of the staff members and a bit of information about them to get to know them a little more.

Michaella Davies

Michaella Davies has worked for Bumbles since April 2021 and is currently working towards completing her Level 2 Childcare qualification.

Michaella works within our Honey Bees Room as a permanent member of staff where she has developed amazing bonds with the children.

Michaella enjoys spending time with her partner or visiting her family who live in Wales.

In her spare time Michaella also enjoys painting miniature fantasy figures.

Diary Dates, Celebrations & Events Calendar

- **Grandparents Day- 4th October**
- **World Smile Day- 5th October.**
- **Friday 29th October- Halloween Fun Day-** The Nursery will be spookily decorated for the children. Also the staff will be dressing up and any children who attend on this day are more than welcome to join in with the fun and get dressed up.

Parent Reminders / Information

Just a reminder to all parents/ carers, we are aware that we are now going into that time of year that children do get cough's and cold's but Covid 19 is still very much around so please be vigilant to help keep everyone safe. A cough and a high temperature are still symptoms of Coronavirus and following Government Guidelines if your child has any of these symptoms they will still need a PCR test to rule out Covid-19. If the test comes back as negative and it has been 48 hours since your child's last temperature they are fine to come back into Nursery. However if you decide to not get your child tested they must stay off nursery and isolate for 10 days. Also another reminder, we can only give paracetamol for a high temperature. We thank you for your understanding and cooperation in this matter.

Baby Bees

Baby Bees have enjoyed taking part in many messy play activities such as, shaving foam, bubble painting and gloop. This has allowed the children to play with and explore new textures.

They had lots of fun creating beautiful bubble pictures by blowing into the straw into the paint and water, then pressing the paper onto the bubbles they have created.

Honey Bees

Honey Bees have been talking to the children about Autumn and how the weather is changing. They have been collecting fallen leaves from our garden to explore the texture of them.

The children described the feeling and the colours of the leaves and described the sound they made as they crunched them in their hands.

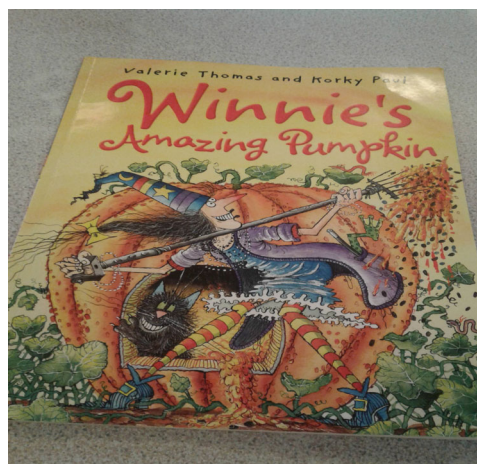

They also made beautiful leaf collage pictures using glue and paper leaves.

Bizzy Bees

Bizzy Bees have also been learning about Autumn and how the weather changes from season to another. The girls have also incorporated the children learning about Autumn with Halloween. The children have been reading Winnie the Witch and her Amazing Pumpkin, this has led to the children talking about the pumpkins they have seen. They have all had lots of fun making lots of different Halloween decorations and discussing the different Halloween decorations that they have seen. They also enjoyed discussing what they were all getting dressed up as this Halloween.

Outdoors

Baby Bees have enjoyed listening to stories and having rhyme time in the garden lately. Their favorite book to read at the moment is 'Peek a Boo.'

Honey Bees have had lots of fun helping out with the gardening and looking after the plants in our big garden.

Bizzy Bees have been working on their Mathematical skills outside, counting the blocks as they stack them up to make big towers.

Eco Schools

Our new Eco Schools Committee has been focusing on recycling and why we recycle. They have been collecting lots of milk bottles over the last weeks and are going to re-use them to make Halloween decorations.

Ella Hughes- Eco Schools Committee

Partnership with Parents

Could we please ask all parents/ carers to provide their children with the suitable clothing and footwear for the colder and wetter months that are coming in! Thank you!

Frankie- Partnership with Parents Coordinator

Thank You

If you ever have any queries or questions please always feel free to call or email to speak to myself or a member of my team.
